## (57)Abstract

PROBLEM TO BE SOLVED: To reduce a troublesomeness of an incoming sound affecting surrounding people by reproducing a plurality of different kind of note data through the use of respectively different tone data, combining them and outputting them.

SOLUTION: A main melody note data string is inputted and stored in a note storage means 0 (21) as a part 0, for example, a chorus note data is in the note storage means 1 (22) as a part 1, the note data string for playing a guitar is in the note storage means 2 (23) as a part 2 and the note data string for playing a base guitar is in the note storage means 3 (24) as a part 3. Then note data respectively stored in the note storage means 0 (21)-3 (24) in this way are respectively reproduced by using tone data which are respectively set in tone setting means 0 (31)-3 (34). Then a combination means 61 combines respective play parts to output it as one tune.
